ST VINCENT DE PAUL - NAMBOUR

Year: 2012
Value: $8,900,000

Midson Construction (Qld) have handed over 41 Social Housing units and a Central Community space in Nambour for the St Vincent De Paul Society Qld ahead of schedule.

The units were constructed on a battle axe site with very limited access and steep gradients. Careful project planning and sequencing was a major factor in the successful completion of the project.

Bruce Bennett [Director Qld] handed back the keys to the local Nambour SVDP representative who was complementary of Midson's quality of workmanship and keen to put the new facility to good use.
